

# SHIPSHEWANA AMISH QUILT

## Section 1

Foundation piece four 6" log cabin blocks and sew them together to make a 12" square. Construct four 3" (finished size) quarter square triangles. Sew together in a strip and add to the left side of the log cabin block unit. For the quarter square triangles, cut two 4 1/4" squares from each color. Sub-cut diagonally both ways to yield 8 triangles with the long edge on the straight of grain. Sew together as pictured.
