VI, GARRY AND GAY

Dear Quilting Friends,
Welcome to the Needleart Guild! We'd like to take this opportunity to introduce the folks here at the Guild — Garry, who in 1932 began the Needleart Guild, originated and supplied the first slotted quilting stencils. In recent years, he has accomplished the monumental task of moving us into the computer age with all of our stencils being precision cut by computer guided equipment.

The next person we'd like you to meet is Violet. Vi is the wife of Garry. She runs the office, handles your inquiries and orders and keeps things running smoothly while taking care of us all.

Next in line is Gay, our daughter. Gay's duties are in production and design of new quilting stencils as well as our Colonial Needlecraft patterns.

At Vi's suggestion, we have added quilting stencils to as many of our pattern packages as we can and hope this will remain an added bonus for you, our customers.

You will notice that the patterns are shown in color. This is a "first" for us and we hope you enjoy the new look it gives our catalog.

We have added some new and necessary notions to our line as well as improving on some of the previous ones. The Raised Edge Quilters Thimble now has a double reinforced top with a waffle design for longer wear and more needle control.

We have grouped the stencils into design categories so if you need a feather block, just flip to that section where we are sure you'll find just what you need.

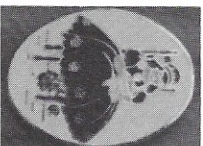

Please feel free at any time to get in touch if you have any questions that you need help with — and to share your quilting and needlework problems. We want to be of help when we can!

Cordially,

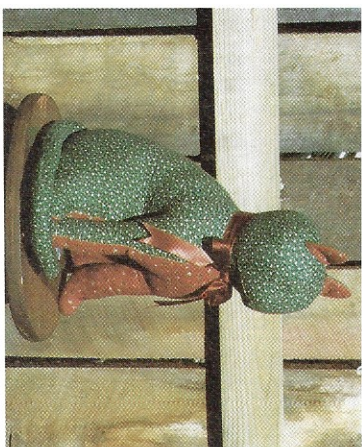

Garry, Vi, and Gay
